

Calendar Maker To Create Editable And Printable Calendars In Excel Crack + With Key Free Download

Calendar Maker to create editable and printable calendars in Excel is a lightweight Windows application whose purpose is to help you design calendars with holidays which can be edited and printed in Excel. Clean layout The utility integrates all configuration settings into a single panel. The dedicated parameters look straightforward so you are not going to invest a lot of time into the tweaking process. A help manual cannot be accessed, only a tutorial that highlights the main features of the utility. Calendar customization options You are given the freedom to create a calendar which is fully editable and printable in Excel. You may enter the preferred year and choose between several preset regular holidays or add a new one by specifying the name, month, and day. Holidays can be deleted from the database, and you can make the application restore the settings to the default options. Plus, you can configure additional holidays (e.g. Memorial Day, Labor Day, Mother's Day, Father's Day). What's more, you are offered the possibility to adjust the color of the holiday text, weekday, calendar weekday title, and calendar background. The text of the calendar can be altered in terms of font and size. With a single click the program is able to create the customized calendar in Excel. On the downside, you cannot preview the adjustments made to the calendar before generating it. Bottom line Calendar Maker to create editable and printable calendars in Excel is not of those tools that come with support for an abundance of settings. It keeps things simple and, for this particular reason, is ideal for less experienced users. Professional users may alter the calendar using advanced functions via Excel. Actually, there is a shareware app available for you to test and that's it! Not a great app at all. It's a hobby rather than a business! As the majority of apps are free, and users try to make money from them, they do a good job. This software can hardly make any money to its developer. You just need to fill out a form and the developer will make a calendar for you. Features: List your holidays in the start of your year in some handy toolbars; Add holidays by clicking on the exclamation mark on the calendar windows; Add new holidays to your list of holidays; Edit and Delete holidays from your list of holidays. Optional: Add a Title for the Day; You can change the background of the calendar to
